

A close-up photograph of the spiral staircase's central column and handrails. The handrails are dark grey, and the central column is black. The staircase is mounted on a light-colored wooden wall.

The Arkè Nice1

The Nice1 is an adjustable economically priced spiral staircase kit that features 12 stair treads and a landing that complements and adds style to any interior living space.

The stair treads are manufactured of multi-layered birch plywood.

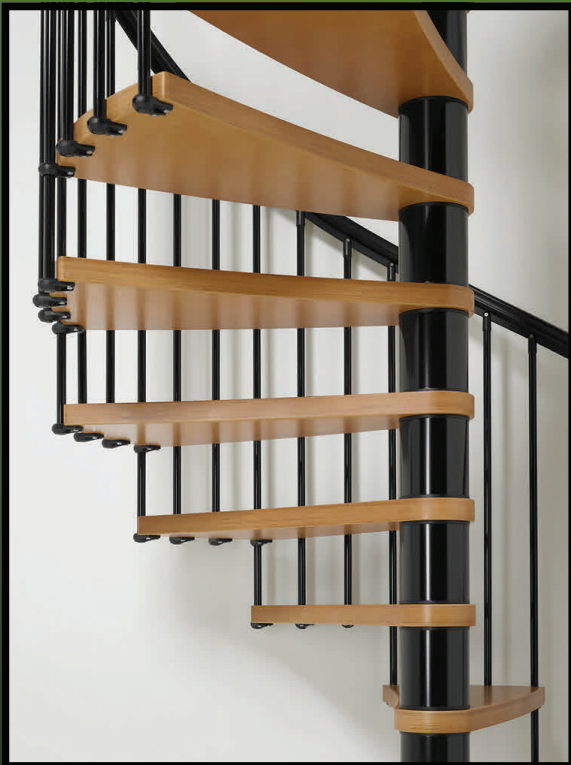

The staircase can be easily installed by the homeowner in a single day using common household tools.

The Nice1 is available in 2 diameter sizes and is available in 2 choices of color: *Powder Coat finished in either Hi-Gloss Black or Satin Grey.*
