

LAN

LAN The LAN railings are characterized by round white-painted steel balusters.

The balusters can be installed directly on the floor or to the side of the floor with special connectors.

There are two baluster sizes: a short one (3'3/16") for installation on the floor or a taller one (4'7/16") for installation on the side.

For staircase railings, install a short baluster and a long baluster on each tread, cutting the long one to suit the installation requirements. You can choose from the NIK wooden handrail or the LAN shapeable simulated wood PVC handrail with an aluminium core that can be adapted to various configurations, straight or curved.

The handrail can be fastened to the wall using white-painted metal supports.

LAN

LAN_Railing characterized by round white-painted steel balusters.

BB0110

Baluster

D 1 1/16" H 4' 7/16"
White steel.
For lateral fitting BD0110 and floor fitting BD0210.

BD0110

Lateral fitting

White metal.
For baluster BB0110.
Baluster distance from the installation wall: 1 1/4"
Complete with 2 expansion plugs, 2 threaded hubs and 2 nuts.

BB0210

Steel baluster

D 1 1/16", H 3' 3/16"
White steel.
For floor fitting BD0210.

BD0210

Floor fitting

White metal.
For baluster BB0210 and BB0110.
Complete with expansion plug.

BE0210

Wall bracket

White metal.
For balusters BB0210 and BB0110.
Complete with 3 expansion anchors and plate cover.

BE0410

Baluster connector

White metal.
For balusters BB0210 and BB0110.

BA0101

PVC handrail

D 1 3/4", L 3' 11 1/4" Flexible simulated light wood grain PVC.
For balusters BB0210, BB0110, BB0411, BB0511.
Complete with threaded plastic connector to join two handrail segments in a straight line.

BA0201

PVC handrail endcap

Simulated light wood grain PVC.
For handrail BA0101.
Pack: 2 pieces.

BA0301

PVC 90° handrail elbow

Simulated light wood grain PVC.
90° Angle.
For handrail BA0101.

BD0410

Handrail wall bracket

White metal.
For handrails BA0101 and BA0401.
Complete with 3 expansion anchors.

BE0110

Reinforcement bar

White steel.
For balusters BB0210 and BB0110.
Complete with expansion anchors and bolts.
